Reasons for Allowance and Examiner's Amendment

REASONS FOR ALLOWANCE

The drawings filed on 10/01/2004 are accepted by the Examiner.

The patent to Buerkel et al. (5,304,776) is cited to show a prior art shielding gas control system that includes a controllable gas flow valve, a gas flow sensor, and a programmable control circuit (see figures 4 and 6) and further includes settings for predetermined maximum and minimum gas flow rates (see elements 80 and 84 in figure 11 and the discussion thereof).

The following is an examiner's statement of reasons for allowance: none of the prior art of record teaches a control system for controlling shielding gas with all of the limitations as set forth in claims 1 and 2, especially the limitations directed to the program operation upon the occurrence of threshold values as set forth in claims 1 and 2. The other claims are allowable at least because they depend from or otherwise incorporate the subject matter of claims 1 and 2.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 2, third from last line (counting the last line as "first from last"), "us" has been changed to is .

This amendment was made in order to correct an obvious typographical error.
